Anders,  
We have a very well respected Agent that takes care of our interest in your area, it is not our intention to do business directly with Appro.

Thank you anyway.

Regards,

Steve Sharp

Hi Ken,  
I have tried to get in contact with Steve for a couple of days without any success, he obviously refused to answer my questions for some reason.  
Maybe you could help me.

Appro have a regular customer, that now have sent us an inquiry of 3 000 unified studs in various materials, dimensions and lengths.  
This is a repeatable order.  
What they ask for is a PED 97/23/EC certified manufacturer.

I know that your cert is valid until 31 October 2010.  
Have you extended that cert?

I really can't understand why you can't give me an answer for this simple question!?
